Introduction

An ORCID ID is a unique researcher identifier, used worldwide, that you keep throughout your life and retain even if you move institution.

Click the green button to get an 'ORCID at Oxford'

You can **create new** or **connect existing** ORCID IDs with the university this way. Use the [Register](#) tab of this guide if you want step-by-step help.

ORCID is increasingly becoming the method of choice by funders and publishers globally to unambiguously link people to their publications and grants.

From August 2015 the Wellcome Trust requires ORCID IDs in grant applications.

Your ORCID record is owned and managed solely by you, not the University.

Progress

Numbers of Oxford linked ORCIDs

Lessons/Recommendations 1

What's in it for me?

- Immediate benefits
 - ORCIDs
 - Linking to Oxford
- Wellcome Trust
- HEFCE REF2020
- Promotion
 - Focus on new members
 - OA pilot groups

Lessons/Recommendations 2

What next?

- ORCID mini-project
- Symplectic link to ORCID
- Handling ORCID under repository (pubs & data)
 - CUD
 - Person records
 - Streamlining services (eg Get your ORCID)
- Integration with admin systems
 - Researchfish
 - HESA
- OA and ORCIDs
 - Scalability
 - Automation
