

# Introductory Medical Statistics

Virtual course: Thursday 9 (pm) to Friday 10 May (am) 2024

This online, one day course introduces you to basic statistical concepts, and is run by statisticians and epidemiologists based at the National Heart and Lung Institute, part of Imperial College.

It is suitable for doctors (including trainee grades), nurses, allied health professionals, clinical research fellows and postgraduate students, and will be held (and recorded) on Microsoft Teams.

Fees:

- MSc/PhD Students: £120
- Academic/NHS: £190
- Corporate/other: £240

Maximum number of delegates is 45, and registration is first-come, first-served; places are confirmed on receipt of payment.

The [booking link](#), provisional programme and other information can be seen on the course website: <https://www.medstatscourse.co.uk/>.

Accreditation (6 CPD points) is currently being sought.
